

# TANDEM TOW DOLLY

**HDXL Model**

An alternative to towing a large enclosed trailer in order to transport your car and two motorcycles, golf cart, or ATV. Two riders...Two Bikes...One Tow Car...One RV!

**The Tandem Tow Dolly is available in three different models.**

**STANDARD**

**3500 LB GAWR & 5000 LB GVWR**

Carrying Capacity = Mid-Size Car plus 1-Golf Cart or 1-Full Size Motorcycle or 1-ATV

**HEAVY DUTY**

**5000 LB GAWR & 8000 LB GVWR**

Carrying Capacity = Mid-Size Car plus 1-Golf Cart or 1-Full Size Motorcycle or 1-ATV

**HEAVY DUTY XL**

**5000 LB GAWR & 8000 LB GVWR**

Carrying Capacity = Mid-Size Car plus 1-Golf Cart or 2-Full Size Motorcycles or 2-ATV's

- Available with Electric or Surge Braking. *(Electric braking system requires the use of an electronic brake control installed on the towing vehicle)*
- The Tandem Tow Dolly is just 30" longer than the standard industry tow dolly.
- All Tandem Tow Dollies feature a Patent Pending weight adjustment system. This allows for adjusting the weight distribution of the load to obtain the optimum tongue weight.

With the motorcycles, golf cart, or ATV loaded onto the Tandem Tow Dolly, the tongue weight may be substantial. The tongue weight may be adjusted by removing the single mounting bolt ( A ) and adjusting the car plate ( C ) forward or backward through the supplied hole settings ( B ). This procedure allows the weight of the towed vehicle to offset the weight of the front cargo in order to maintain the desired tongue weight for the towing vehicle.
